Taught academic discipline(s)

BACHELOR'S IN CHEMISTRY (1ST YEAR) :

Lecture/tutorial "Reactivity in solution" (in french)

Tutorial "Atoms and Bonds" (in french)

BACHELOR'S IN CHEMISTRY (2ND YEAR) :

Practical work "Experimental techniques" (in french)

BACHELOR'S IN CHEMISTRY (3RD YEAR) - "PACKAGING" MENTION :

Lecture/tutorial "Physico-chemistry of polymers" (in french)

BACHELOR'S IN "PACKAGING TECHNOLOGY" :

Lecture/tutorial "Physico-chemistry of polymers" (in french)

MASTER'S IN "PACKAGING ENGINEERING" :

Lecture/tutorial "Chemistry of polymers" (in french)

Lecture/tutorial "Permeability" (in french)

Research topics

- Photochemical ageing of polymer materials
- Transport properties of polymer materials

Responsibilities

- In charge of communication for the "Photochemistry" team within the Institute of Chemistry of Clermont-Ferrand (ICCF, UMR 6296)
- In charge of the "**Packaging**" mention (L3 Pack) within the B.S. Chemistry at the Faculty of Chemistry (UCA)

Activities / Resume

POSITIONS / PRICES

09/2019 - present :

Assistant professor section CNU 31, Institute of Chemistry of Clermont-Ferrand (ICCF, UMR 6296) / Faculty of Chemistry, University of Clermont Auvergne (UCA), France

09/2018 - 08/2019 :

Postdoctoral researcher, Hagemann research groupe, University of Geneva, Switzerland

09/2017 - 08/2018 :

Temporary teaching and research assistant (ATER), Laboratory of Macromolecular Photochemistry and Engineering (LPIM) / National College of Chemical Engineering Mulhouse (ENSCMu), University of Haute-Alsace (UHA), France

EDUCATION

10/2014 - 08/2017 :

PhD in physical chemistry, Laboratory of Macromolecular Photochemistry and Engineering (LPIM), University of Haute-Alsace (UHA), France

Title : "Molecular photochemistry of photopolymerization processes: from mechanistic study to kinetic modeling"

Additional informations

- Member of the [Photochemistry](https://iccf.uca.fr/english-version/research/photochemistry) team
- Member of the POlymers, Photochemistry, Properties and Interfaces thematics
